

EXPRESS SCRIPTS®

## 2009 Express Scripts National Preferred Formulary For Kentucky Employees Health Plan

The following is a list of the most commonly prescribed drugs. It represents an abbreviated version of the drug list (formulary) that is at the core of your prescription-drug benefit plan. The list is not all-inclusive and does not guarantee coverage. In addition to using this list, you are encouraged to ask your doctor to prescribe generic drugs whenever appropriate.

**PLEASE NOTE:** The symbol \* next to a drug signifies that it is subject to nonformulary status when a generic is available throughout the year. For specific questions about your coverage, please call the phone number printed on your ID card.

## KEY

The symbol [INJ] next to a drug name indicates that the drug is available in injectable form only.

The symbol [PA] next to a drug name indicates that Prior Authorization is required.

The symbol [QLL] next to a drug name indicates that quantity or therapy limits exist.

The symbol [SNRI] stands for Serotonin-Norepinephrine Reuptake Inhibitor.

The symbol [ST] next to a drug name indicates that Step Therapy applies.

**For the member:** Generic medications contain the same active ingredients as their corresponding brand-name medications, although they may look different in color or shape. They have been FDA-approved under strict standards.

**For the physician:** Please prescribe preferred products and allow generic substitutions when medically appropriate. Thank you. Brand-name drugs are listed in CAPITAL letters. Generic drugs are listed in lower case letters.
